Great Britain's Foreign Policy

Lansdowne Declares Shanghai Editors Will Not Be Delivered to Chinese Justice.

Government Anxiously Watching Events in Balkans to Mitigate Troubles.

Lord Selborne Defends Agreement Made With the Cunard Company.

London, Aug. 13.—Answering various questions on foreign affairs raised by Lord Spencer, the liberal leader in the House of Lords today, Foreign Secretary Lord Lansdowne said there was reason to hope that the difficulties in the way of a settlement of the claims against Venetian pirates in the Adriatic, the Dardanelles and soon to be received, Dardanelles instructions, he declared, had been given by the British government that the Chinese journalists at Shanghai should not be surrendered to Chinese justice.

The government was anxiously watching events in the Balkans, and would utilize every opportunity of mitigating the troubles there.

Lord Spencer further called attention to the agreement with Cunard Steamship Company, which was approved by the House of Commons yesterday, and moved for a return of the statistics relating to previous subsidies.

Lord Selborne defended the agreement on naval and economic grounds.

It kept, he said, at least one of the great trans-Atlantic lines under British control, and it had not merely a naval, but a wider national aspect.

Lord Spencer's motion was afterwards accepted.

—

FLATIRON RAILWAY COLLISION.

Toronto, Aug. 13.—(Special)—A light engine collided with a freight train on the C. P. R. two miles west of Sharbot Lake this morning, resulting in the death of Engineer Haligan, of the light engine. John Forsythe, brakeman, was also fatally injured.

John Forsythe, who commanded the column, was non-plussed and a little angry, but the

crowd was so thoroughly pleased that there were repeated demands for an encore.—London Express.

TYPE WEST INDIES HURRICANE.

St. Thomas, W. I., Aug. 13.—The hurricane on Tuesday demolished the cable hut, land lines and office at Holland Bay, Jamaica, the landing place of the Puerto Rico cables. Communication was restored by removing the cable on the beach.

MR. BLAIR'S BITTER SPEECH.

Globe Has Reason to Believe That Ex-Minister Will Join Opposition.

Toronto, Aug. 13.—(Special)—The Globe today prints the following telegraphic from its Ottawa correspondent:

"Hon. Mr. Blair, by his bitter speech yesterday, is regarded as having indicated his intention of associating himself with the opponents of the government. This belief is confirmed by the fact that Mr. Blair and Mr. Borden were closeted for a long while together in the former's room."

VESUVIUS AGAIN CAUSES ALARM

Flow of Lava Causes Panic And Country Shaken By Earthquakes.

Rome, Aug. 13.—Vesuvius is again causing intense alarm in the surrounding region. The eruptions of the volcano were very heavy today. From a fresh opening at the base of the principal crater, two streams of lava are issuing, and in a few hours covered a large tract. One stream is going swiftly towards the village of Ottaviano, the direction taken by the famous eruption of 1872. The whole district around the volcano is shaken by frequent earth-shocks, and a panic prevails the population crowding the churches to pray, or gathering in open spaces for safety. Experts affirm that so far there's no reason to fear a serious disaster.

AN AMERICAN INVASION OF ENGLAND

American Bluejackets and Marines Marching Through Portsmouth

The bluejackets of the American squadron "rake-walked" through the streets of Portsmouth recently as the band of the Second Hants Volunteer Artillery played a lively Yankee air.

The rake-walk was an unexpected addition to the day's entertainment, which had been arranged for the visiting sailors by the Corporation of Portsmouth. They marched, 800 strong, from the dockyard to the Connaught drill hall, where they were tendered a luncheon by the mayor and corporation.

At first the sailors swung along in an easy step while the band played a lively march. The cheers with which they were greeted tripled in force as the music suddenly shifted to the genuine calk-walk rhythm, and almost as one man the column dropped as quickly into the peculiar half shuffle hair-pièce affected by rake-walkers.

Lieut. Spencer Wood, of the *Alagoa*, who commanded the column, was non-plussed and a little angry, but the crowd was so thoroughly pleased that there were repeated demands for an encore.—London Express.

CUMBERLAND MINE INQUEST PROCEEDS

Facts Elicited as to the Cause of the Recent Fatal Explosion.

Nanaimo, B.C., Aug. 13.—It is improbable that the inquest on the victims of the Cumberland disaster, now proceeding, will be concluded tonight. So far the evidence shows that every precaution was taken to ventilate the mine. A pocket of gas had formed, and safety lamps were being used temporarily. It seems probable that a fall of rock had deflected the air current, and so allowed gas to accumulate, thus causing an explosive mixture. How this was fired is indicated by the discovery of matches and tobacco on the persons of the dead Chinese.

Demented by fantastic fears that he would be murdered by enemies, Ernest Cavilier, a clever musician, committed suicide this morning at the Cumberland by shooting himself through the heart.

How Mr. Blair, by his bitter speech yesterday, is regarded as having indicated his intention of associating himself with the opponents of the government. This belief is confirmed by the fact that Mr. Blair and Mr. Borden were closeted for a long while together in the former's room."

Don't Forget to Call.

CARNE'S GROCERY, Gor. Yates and Broad

Association on
A Good Basis

Now Twenty-One Active Branches of Provincial Mining Organization.

An Important Meeting of the Executive To Be Held in Rossland Shortly.

In a report dated August 3rd, issued by the secretary of the Provincial Mining Association, Mr. R. E. Brett, the following statements are made:

"Since the monthly report of July was sent out, an active local organization has been formed at Fairview, starting with 55 members, with every prospect of a considerable increase."

"There are now 21 branch organizations in the province, and it is hoped, by vigorous and united action, that this number, by the date of the next monthly report, will be considerably augmented."

"A very gratifying piece of information was received here during the past week, it having been announced that a separate department, to be called 'The Department of Mines,' will be established at Ottawa, which will have full charge of all matters relating to mining within the Dominion."

"At the meeting of the convention in February last, a resolution recommending this action on the part of the Dominion government was passed and forwarded to the Secretary of State at Ottawa. There is reason to believe that the determination of the Dominion government to establish a department of mines was inspired by the resolution of this association."

"It has been suggested that a meeting of the executive committee be held at Rossland on or about the 25th inst., when there will be a large influx of people in attendance at the summer carnival. It is thought that advantage should be taken of the presence at Rossland of representative people from all parts of the province to push the mining interests of the association by this association in every possible way. Several members of the executive have expressed an intention of being present at Rossland on that occasion."

"The emblems of the association have been received since the date of the last report. Samples have been sent to all the branch organizations, and it is confidently hoped that they will be distributed and worn by every member, and so increase the interest already felt in this institution."

"In conclusion, it is desirable to urge upon the branch associations to do all in their power to add to their membership, and so increase the interests of mining in the province."

"We are gratified to know that the bonus of \$15 per ton on lead is duly effected, and that many mines which were formerly closed down are prepared to resume work."

"At the meeting of the executive, to be held at Rossland on Monday, the 24th inst., the business which is to be considered is outlined as follows:

1. To consider the accounts, which show \$3,691.05 collected from all sources, and \$2,888.39 expended, and to arrange for more active enlargement of the sphere of the influence of the association, the disposition of the remainder of the convention proceedings and emblems, and the extension of our membership.

2. To demonstrate that the aims of the association are provincial and not national.

3. To discuss the unfair operation of the "Water Clauses Act," its uncertain language and action, and suggest amendments.

4. To consider the interrogatories which should be addressed by the members to candidates to ascertain their views towards the mining industry, without drawing the association into party politics.

5. To consider the bearing of the "Boiler Inspection Act" towards owners of boilers who insure them.

6. To consider the reports of the members of the executive of the various districts upon the progress made during the last six months and since the convention, and to provide for stimulation.

7. To consider and frame questions to be sent to the various bodies to prepare amendments to by-laws and organization of the next convention in January next (probably the 15th or 16th).

8. To consider suggestions on the coal and coke supply to the now numerous industrial centres.

9. To review the work and workings of the association and the results of organization at present in force.

10. To transact any other business which may properly come before the executive.

Should you be unable to attend, kindly let Mr. Keen, at Rossland, where he will be on the 12 instant, a note embodying any suggestions you desire to make, or matter you wish discussed, and a report of your district for the information and action of the executive.

It is probable that D. W. Higgins, Henry Croft and P. J. Pearson will attend from Vancouver Island, and it is not unlikely that they will be accompanied by several other Island representatives.

"Ah!" he said to her over their tea cream. "It is very sweet, but not so sweet as you." "It is so soft," she returned promptly, "but not so soft as you." "And it is cold," he concluded, "but not so cold as you!"—Philadelphia Press.

CLOTHIERS, HATTERS AND FURNISHERS.

48 Government Street.

Native Sons' Excursion.—Tickets for the native sons' excursion to Tacoma, which takes place on August 22nd on the new steamer Princess Victoria, are now on sale at the office of the C. P. R., on Government street. Hamilton Abbot, agent of the C. P. R., states that the tickets issued by the Native Sons must be exchanged for tickets of the company, and he wishes that holders of those tickets will call at the C. P. R. office and have the tickets exchanged.

Picnic Tomorrow.—Tomorrow the E. & N. train leaving at 9 o'clock a.m., will take the Veterans' Association to Shawnigan. A large turn-out of veterans with their families and friends is expected. Amusements will be provided for enjoyment. Those who like good sport at boating and fishing will have an excellent opportunity. All who avail themselves of this magnificent outing can remain over night and return by train on Sunday.

Point Ellice Bridge.—The city engineer is to leave in a few days for Pittsburg to examine the superstructure of the new Point Ellice bridge, which, it is understood, is rapidly approaching completion in shape. The workmen are to be placed in position. City workmen are now engaged in putting in the third and last pier at the site of the new structure. The coffer dam has been sunk, and in a few days the work of laying the big granite blocks will be commenced.

McEwen's Hypnotic Feats.—McEwen, the hypnotist and magician, at the Victoria theatre on Monday evening, the meets of entertainment are too widely known to call for special comment. Mr. Gay and Gaul will not appear in their musical specialty. Andrews and Thompson, lately of the Castle Square Opera Company having been engaged to take their place, Andrews and Thompson are reported to be splendid vocalists, and will be heard here in operatic selections.

Petition for Release.—A petition, addressed to the Minister of Justice at Ottawa, praying for the commutation of the sentence passed upon Colonel Hayes, is being circulated in the city and receiving numerous signatures. Hayes, it will be remembered, was sentenced to a term of imprisonment at the conclusion of the hearing of the charge of fraud brought by Capt. John Irving. The unfortunate man is reported to be in very ill confinement having worked disastrously on his health, hence his efforts to secure his release. The petition will be laid before the Minister of Justice by Mrs. Hayes the latter intending to go to Ottawa for the purpose.

Voters' Final Day.—This is the final day for those, who though qualified to have their names placed on the voters' list for the City of Victoria, have so far failed to take advantage of the opportunity presented to exercise the franchise. The propinquity of the election, the number of statutory declarations filed with Mr. Harvey Combe, collector of votes, amounted to 4,485. From this number it is probable that between 35 and 40 will be taken off by reason of duplication and upon other objections in respect to not meeting the statutory requirements. Applications will be received until midnight this evening, and the office of the collector of votes will be open until 9 p.m. No application will be received after midnight.

Purchasing Curios.—American visitors are spending a good deal of money at present in the local Chinatown, purchasing curios, and consequently the merchants there are pleased with the manner in which the tourist association is treating the unmoneyed strangers. Several of the Chinese merchants have just laid in stocks, especially in the famous Chinatown of San Francisco. Delicate chinaware seems to be the principal fad of the tourists.

Parliamentary Tourists.—Nothing definite has yet been ascertained regarding the party of British parliamentary tourists who were alleged to have decided to pay Canada a visit of inspection from Atlantic to Pacific. The Bureau of Provincial Information knows nothing about the matter so far. If they come, it will be in a private capacity and not as regularly accredited representatives of the British House of Commons.

To Visit Victoria.—C. C. Hodgins, head consul commander of the Woodmen of the World, will leave Lucan, Ont., about September 1st on a visit to Victoria and the camp of British Columbia. The monthly camp at the camp takes place on Friday, 21st inst., when the matter of his reception will be taken up. A sick benefit fund has been started by the head executive, an alteration to the charter allowing the payment of sick and funeral benefits being granted at the last session of the Dominion House.

Taken for a Junk.—A horrible indignity was perpetrated on the Dominion government's naval designers and constructors yesterday afternoon when a visiting American asked a Victoria general, James Baybridge, if that strange-looking craft lying in the harbour was Chinese junk. The southerner, who is a good Liberal, replied with some asperity: "No, sir; that is the Dominion government steamer Kestrel from Vancouver." The stranger then wanted to know if the repairs to her (face) would take long to finish, but got only a short for reply.

Sale of Russ House.—It is anticipated that bidding will be very lively at the auction sale tomorrow of the three-storey brick building on Johnson street known as the Russ House. There are 42 bedrooms in the building, bar and billiard rooms, a restaurant and fine saloon. The sale will be held at 10 a.m. The auctioneer is Mr. W. H. White, the man for building of such a character at the point when it is situated, is not very pressing at present those who have faith in the future of Victoria realize that the property is bound to become very valuable in a short time.

Edison Theatre.—This cozy rendezvous of amusement lovers is presenting some sterling attractions this week, all the specialties being of unusual elegance. Morris James, the black-faced comedian, is a witty humorist in a good style, able to sing a topical song in a good style. Mr. P. Barthold, the magician, direct from Keith's, performs some clever tricks. He is exceptionally good in palming. He presents some of the latest mystic feats in sleight-of-hand work. Mann and Frank, in their comic comedy sketch sing some of Chevalier's tuneful melodies and introduce some amusing caricature. Madam Lloyd is a charming singer in her beautiful solo her high-train voice is a soprano. The company will sing a variety of songs, elegantly illustrated, many views of the local fire department being shown. This song is making a big hit. The moving pictures are unique and entertaining. Don't miss seeing this week's programme.

Cantata to be Given.—A very successful meeting was held yesterday afternoon at the Alexandra College of Music for the purpose of making preliminary arrangements in connection with the production of the new Smart's cantata, "King Henry's Daughter." There was an enthusiastic attendance, and organization was speedily effected. The cantata is confined to lady voices, the score providing for splendid chorus work and solos for soprano, mezzo soprano and contralto. The cantata will be presented under the baton of Frank T. Watkins, and this is an assurance that the music will be accorded careful and judicious treatment. Mr. T. Watkins, planed selections from the cantata to convey an idea of the character and scope of the work, and everyone was highly delighted with the truthful music. It has been decided to give the cantata some time in October, in special honor of the new quarters in which the Alexandra College of Music will be installed so soon as the Metropolitan building is finished. The first rehearsal will be held next Tuesday afternoon at 4 o'clock at the college.

Picturesque Victoria.—The Tourist Association is sending out notices to C. P. R. agents and newspapers requesting assistance in the proper circulation of the descriptive pamphlet, "Picturesque Victoria." The circular, sent to the editors of newspapers, reads as follows: Dear Sir: The association is endeavoring to take advantage of the cheap rates that are now in operation from your city to Victoria, in order to encourage travel through the West to the Pacific coast especially to our own city. For that purpose we are sending out a large number of copies of "Picturesque Victoria," with a leaflet inserted calling attention to the special rates. Any assistance you can render us will be appreciated by this association.

Bible Society.—A meeting of those interested in the Bible Society is called for next Monday evening in the C. P. R. Hall, when the two commissioners, Mrs. Bertram Bryan and Jessie Gibson, will be present and deliver addresses.

A Good Clean-up.—Advice from Cariboo is to the effect that the Cariboo Hydraulic Company has closed down on account of the shortage of water, and will not reopen till next season. The clean-up is satisfactory for the partial work being between thirty and forty thousand dollars. A gold brick was awarded to the treasurer.

Hospital Directors.—A meeting of the directors of the Jubilee Hospital will be held in the board room of the institution this evening. In the absence of Secretary Elworthy, who is on a holiday trip to San Francisco, the clerical duties will be performed by Director R. Day.

Plenty of Fruit.—In spite of the destruction of so much unsound California fruit recently by the inspectors, the market is very well supplied with all kinds of delicious fruits, particularly peaches and pears of splendid appearance and excellent flavor.

Meeting of Creditors.—A meeting of the creditors of the Nesbitt Electric Co., who lately made an assignment to G. H. Macdowell, will be held at the office of D. M. Rogers, Law Chambers, Bastion street, at 11 o'clock on Monday next.

Funeral Tomorrow.—The body of the young lady who fell a victim to poisoning as the result of eating canned meat—Miss Ethel Frith—will be interred tomorrow afternoon, the funeral taking place from the residence of Mrs. Brown, 59 Pandora avenue, at 2 o'clock, and later from St. John's church.

Conservative Conventions.—Tomorrow, the 15th inst., there will be held in several of the electoral districts of the province nominating conventions to place in the field candidates in the Conservative interest, for the coming general election of October 31st next. As this is the first election, no party candidates can be nominated who are not government candidates, everyone in political affairs is fraught with more than ordinary interest.

Fine Display of Prizes.—In the large show windows of Messrs. B. Williams & Son, the finest display of prizes ever exhibited in British Columbia for any sporting event. The collection is made up of the trophies which are to be competed for at the first annual meet of the North Pacific Amateur Athletic Association, which is to be held tomorrow afternoon at Bowker Park. In all, there are 42 separate articles, which include some very handsome and costly cups and beautiful jewels. The exhibit is well worth seeing.

The Final Scene.—The remains of the late David Alexander Hermon, laid to rest yesterday afternoon, will be taken from the family residence, No. 52 Bellevue street, at 2:30 p.m., where impressive services were conducted by the Rev. S. S. Osterhout, assisted by the Rev. J. P. Westman. Appropriate hymns were sung at the residence and graveside, and the large attendance of friends and the abundance of flowers testified to the esteem in which the deceased was held. The members of the Central Lacrosse Club, also members of the Young Men's Club, Class of the Metropolitan Methodist church attended in body and marched to the cemetery. The pallbearers were: W. Maynard, F. D. Bragg, A. Metcalf, M. Farr, L. Macrae and H. Matthews.

An Historic Tree.—Numbered among the illustrations which will accompany a special article on the Cowichan district to be published in the Colonist on Sunday next, will be the picture of a huge oak tree of much historic interest. The aged monarch of the forest is situated on Capt. Addington's place, which fronts the road running from Duncan to Somesos. It is tall and majestic in appearance, and hereafter will be regarded with additional interest when it is known that under its sheltering branches in 1860, the late Bishop Hills preached a sermon to the residents of the district. It occupies an isolated position and a species of wall, protecting England in the days of Nelson and Rodney and Blake.

Rev. Dr. Rowe's Successor.—It is anticipated that the gentleman who will succeed Rev. Dr. Elliott S. Rowe, in the pastorate of the Metropolitan Methodist church, will be Rev. William Shore, of Toronto Junction. A call has been extended to the latter, and there is the best of reason for believing that he will accept. Rev. Mr. Shore is looked upon as one of the brightest men connected with the Methodist church in Canada, and is very highly recommended by Rev. Solomon S. Johnson, who suggested the solution was determined upon. Rev. Mr. Shore was for years engaged in mission work in Totem, and was identified for a long time with the successful management of the Massay mission. He occupies an isolated position and a species of wall, protecting England in the days of Nelson and Rodney and Blake.

Rev. Dr. Rowe's Successor.—It is anticipated that the gentleman who will succeed Rev. Dr. Elliott S. Rowe, in the pastorate of the Metropolitan Methodist church, will be Rev. Mr. Shore was for years engaged in mission work in Totem, and was identified for a long time with the successful management of the Massay mission. He occupies an isolated position and a species of wall, protecting England in the days of Nelson and Rodney and Blake.

White Pass Rates.—The White Pass & Yukon railway in its tariff circular issued in April last, announced that no through bills of lading would be issued after August 31; also that all the special commodity rates named in the spring tariff would expire after August 31, unless it was previously revoked. Inquiry elicited the fact that the tariff in question has not been revoked, and that the bills of lading will be strictly enforced. The company will only issue bills of lading as far as White Horse with ultimate destination shown. This action is necessary in order for the company to avoid being buried under immeasurable guarantees to handle through freight later in the season when navigation is at its worst and is liable to be suspended any moment by early frosts.

Edison Theatre.—This cozy rendezvous of amusement lovers is presenting some sterling attractions this week, all the specialties being of unusual elegance. Morris James, the black-faced comedian, is a witty humorist in a good style, able to sing a topical song in a good style.

Mr. P. Barthold, the magician, direct from Keith's, performs some clever tricks. He is exceptionally good in palming. He presents some of the latest mystic feats in sleight-of-hand work.

Mann and Frank, in their comic comedy sketch sing some of Chevalier's tuneful melodies and introduce some amusing caricature.

Madam Lloyd is a charming singer in her beautiful solo her high-train voice is a soprano. The company will sing a variety of songs, elegantly illustrated, many views of the local fire department being shown.

This song is making a big hit. The moving pictures are unique and entertaining. Don't miss seeing this week's programme.

Cantata to be Given.—A very successful meeting was held yesterday afternoon at the Alexandra College of Music for the purpose of making preliminary arrangements in connection with the production of the new Smart's cantata, "King Henry's Daughter." The cantata is confined to lady voices, the score providing for splendid chorus work and solos for soprano, mezzo soprano and contralto. The cantata will be presented under the baton of Frank T. Watkins, and this is an assurance that the music will be accorded careful and judicious treatment.

Mr. T. Watkins, the conductor, has received circulars describing the character of the attraction which the specialty company is handling, and it is shown that it is along the lines of a Wild West show.

The company carry a band of Indians with their ponies; cowboys exhibit life on the plains; there is an exhibition of a stage hold-up, the same as in real life, and there are other features of a decidedly novel and exciting character.

Mr. Swinton is very hopeful of being able to arrange for the appearance here of the troupe, but a good deal depends upon the ability of the latter to arrange for a "circuit."

Wild West Show.—Secretary Swinton of the Agricultural Association is in communication with a specialty company now touring the country. The specialty company is a wild bunch of Indians with their ponies; cowboys exhibit life on the plains; there is an exhibition of a stage hold-up, the same as in real life, and there are other features of a decidedly novel and exciting character.

Mr. T. Watkins, the conductor, has received circulars describing the character of the attraction which the specialty company is handling, and it is shown that it is along the lines of a Wild West show.

CRICKET.

The first match of the series that the Seattle Cricket Club play here this week resulted in very exciting finish with the Garrison team, and until the last moment, the match was in doubt. The game was played with unusual vim, the fielding on both sides being excellent. Seattle winning the toss, elected to bat, sending in Sewell and Howe, who raised the score to 40 before they were separated. Wilding, Warden and Wilcox ably seconded their efforts by contributing double figures, the whole innings closing for 101. The Garrison started with Cameron and Rivers, but the bowling of Sewell proved too destructive, and if Capt. Bunbury had not come to the rescue of his side with faultless innings of 53, the Garrison would have suffered a severe defeat, as it was one of the closest games was brought to a close, leaving Seattle victors by the narrow margin of 3 runs. The score follows:

SEATTLE.

1st Innings.	
Fane Sewell, c. Crum, b. Longbottom	10
E. J. Howe, c. Oliver, b. Oliver	27
L. J. Pattullo, b. Oliver	9
G. C. Sauluz, c. Cameron, b. Longbottom	0
A. E. Wilding, b. Oliver	12
C. R. H. Warden, b. Oliver	16
C. R. Wilcox, c. Bunbury, b. Askey	6
A. Williams, b. Oliver	6
R. L. Wingate, b. Askey	4
J. L. Lyon, not out	0

Seattle went to bat the second time and succeeded in running up a score of 111 for 4 wickets, of which Sauluz contributed 30, Howe 40, not out, Warden 21, not out, and Wilding 17.

The Seattle team are here to play a series of matches, playing the Navy today and the Victoria Cricket Club Saturday at Beacon Hill.

LACROSSE.

The Westminster team is reported to be practising hard for the game with Vancouver, which takes place in the Terminal City on the 23rd. The Westminster players are determined to get into the pink, a condition for the contest, which will all probability be the greatest and most fiercely fought lacrosse battle of the season in this province. The Vancouver men are also putting in hard work, and will employ every effort to again lower the colors of their formidable rivals for championship honors. Vancouver will have the advantage of playing on their own grounds, and considering that they were able to defeat Westminster on the latter's ground, should have the odds in their favor.

A suggestion has been made for a joint visit of the Shamrocks and Vancouver to California with the idea of playing a series of exhibition games, many Canadians in the Golden State enroute to California with the idea of putting up good lacrosse, and the assurance is given that the trip could be easily financed.

The following players will represent the Victoria Intermediates in the game with the Nanaimo Mosquitos at Nanaimo on Saturday: Goal, Calhoun; point, Taylor; cover point, Stevens; 1st defense, Russel; 2nd defense, Richmond; 3rd defense, McDowell; centre, Hargrave; 1st home, McLaughlin; 2nd home, Proctor; 1st home, Pike; outside home, Sewell; inside home, Simpson; field captain, Fred. White; trainer, Prof. Foster.

Cut glass and bric-a-brac should always be washed with Sunlight Soap. Shave enough Sunlight Soap into a pan, one-quarter full of lukewarm water and wash into a lather. Wash the articles thoroughly and dry with a soft cloth. This insures that brilliancy and sparkle so much admired in cut glass articles. Sunlight Soap can be used to clean and brighten all through the household. It is the purest and best soap made.

LEVER BROTHERS LIMITED, TORONTO. 123

esting on the eve of the great contests between the masterpieces of Fife and Herrschoff, to briefly compare the two yachts competing for international honors.

Shamrock III, is 138 feet over all, 22 feet 6 inches beam and draws about 19 feet of water. When the new mast is stepped, her sail spread is expected to reach 16,000 square feet.

The Reliance is the new type, with a bowsprit that has been constructed to slide over the surface of the water in contradistinction to that of the Constitution, which cuts through the waves. Herrschoff has gone back to the single spreader on the Reliance, and has concentrated all the strain on the mast at one spot, the jaws of the gaff, the spreaders and the stout posts for the jumper stay all being at one point.

The seventh race of the one-design class was sailed on Wednesday afternoon in a fresh breeze, the prizes being the Victoria Yacht Club cup and two gold flags. The boats were sent round the inside course, as there was quite a sea outside.

The bout was featureless except in the third round, when the realighting took place. In this encounter Smailham managed to land a lucky right swing to the jaw, flooring Attell, who was badly dazed and took the count several times to save himself and gain wind. The gong saved him. Smailham had decided hard luck in not being able in spite of every effort, to put Attell out. The minute's respite lost him his chance for good, as Attell, who was in fine condition, recovered rapidly and improved throughout the contest to the final, when found him quite better.

Attell did 90 per cent. of the leading, and several times had Smailham in corners and against the ropes, though he was apparently unable to do any serious damage to the plucky little San Franciscoan. The best of temper was preserved in both sides throughout the bout. Attell was cautioned by the referee, Mr. Harry Morton, twice for hitting in the clinches, and Smailham once, but nothing like a deliberate foul took place. Little or no blood was tapped, and knock-downs were scarce.

Will Secure African Trade

British Columbia Mills Will Benefit By Preferential Legislation.

Cape Colony's Legislature Will Favor Markets Within Empire.

The bark Challenger is loading lumber at Chaimainus for Cape Town. In connection with the export of lumber to Cape Town and South Africa, good news has been received by local lumbermen. It is to the effect that a preferential tariff has been considered, and is likely to pass the Cape legislature shortly, which will put British Columbia lumber on the favored list. A preferential tariff will be made on imports from points within the British Empire, and this will mean that the big lumber trade of Cape Town and ports in Cape Colony and South Africa generally, which has hitherto been limited to the United States, will hereafter come to British Columbia. It is expected that the British Columbia mills, aided by the new tariff to be imposed when the legislation passes the South African House, will be able to secure all the business of the growing markets in the south of Africa.

News is also given of the charter of two further salmon carriers, making a fleet of three in all, which is the smallest fleet of salmon carriers ever chartered at any one time during the year. Usually twice, and often three times, as many vessels have been fixed by this time, now, though much of the salmon is being shipped by steam. The vessels chartered for salmon are the Maeklouw, 1,225 tons, which brought steel rails to Vancouver from Rotterdam, she being chartered at 26 shillings and 3 pence, and the German ship Ariadne, 1,071 tons, which is coming in loaded from Santa Rosalia. She is chartered at 27 shillings and 6 pence. The British ship Camellia Elveren, coming from Valparaiso in ballast, was chartered some time ago at a similar rate.

In their monthly freight and shipping report for July, R. P. Ritter & Co. say: The high price at which wheat is held has brought the grain freight market practically to a standstill, rates showing a downward tendency all through the month. The farmers are asking as much f.o.b. as can be got c.i.f. U.K., and any improvement in the grain situation abroad takes place it is impossible to quote rates.

Lumber freight rates are slightly lower, with few exceptions reported. We quote freights as follows: Grain—San Francisco to Cork, £14; to £16, 1d.; Portland to Cork, £16, nominal; Tacoma and Seattle to Cork, nominal. Lumber—British Columbia or Puget Sound to Sydney, 30s, to 31s, 3d.; British Columbia or Puget Sound to Melbourne or Adelaide, 35s, to 37s, 6d.; British Columbia or Puget Sound to Port Pirie, 30s, to 32s, 6d.; British Columbia or Puget Sound to Kino-Chu, 40s; British Columbia or Puget Sound to Shangha, 35s, to 37s, 6d.; British Columbia or Puget Sound to Kino-Chu, 40s; British Columbia or Puget Sound to Taku, 28s, 9d, to 41s, 3d.; British Columbia or Puget Sound to Vladivostock, 40s; British Columbia or Puget Sound to West Coast, S. A., 30s, to 32s, 6d.; British Columbia or Puget Sound to South Africa, 54s, to 58s; British Columbia or Puget Sound to U. K. or Continent, 50s, to 51s, 3d.

KNOW DR. CHASE IN 1867.

One of Dr. Chase's oldest patients in Canada is Mr. G. W. Parish, of St. George Bay, Simcoe County, Ont., whom he cured of kidney disease in 1867 by means of his now celebrated Kidney-Liver Pills. Mr. Parish writes that he does not think there is any medicine half so good, and that he always keeps Dr. Chase's Kidney-Liver Pills in the house as a family medicine.

She—"And are you really so much better since you returned from your trip abroad?" He—"Yes, indeed! I'm quite another man. I assure you. She—"Well, I'm sure all my friends will be delighted to hear it."—Chicago Daily News.

British Shipping Reports Tell Depression in World's Marine Business.

Steamer Machaon of Ocean Line Arrives From Liverpool Via Ports.

The British ship Dovenny, which has been lying in the Royal Roads for some time, has been chartered to load timber at Olympia for the West Coast of South America. The Dovenny's owners have been keeping her idle in the hope that the freight market would improve, but have had no improvement. The depression in shipping seems to continue and according to the best authorities is likely to do so unless some unforeseen happening, such as the war in South Africa, diverts shipping to the Orient.

Mr. Dunn of Victoria, arriving a week ago yesterday, is preparing to ship 200 tons of ore from his mines located there, assays of the ore from which have given \$37 to the ton.

The Dominion government commenced work on the rapids at Kennedy river on August 10th, and a great deal of improvement is necessary at this point to facilitate shipping to the lakes.

Mr. Dunn of Victoria, arrived at Clayquot on August 9th, and has commenced development work on his property at Elk river. The Rose Marie still continues to show up well, also the Leon, the property of Capt. John Irving, some very high grade ore has been taken from the latter.

The steamer will sail for the West Coast again tonight.

BROQUOIS WAS ASHORE.

Inter-Island Steamer Stranded and Was Towed Off by R. P. Rithet.

Steamer Iroquois had a narrow escape from being piled up on the rocks of Prevost Island during the squalls which blew on Tuesday afternoon. The steamer which was bound for Victoria, ran into the fog at Victoria Terminal Railway & Dock.

The Iroquois was found ashore by the steamer R. P. Rithet, Capt. Hickley, when the C. P. R. steamerwheel was en route to Victoria. The Iroquois had lost her propeller and was fast when the Rithet came alongside and in answer to a request for assistance, the Rithet took the stranded Iroquois and hauled her from the shore. After floating the Iroquois the R. P. Rithet towed her to Ganges harbor, and then continued his voyage to Victoria, arriving here seven hours late in consequence of the delay occasioned in solving the inter-island steamer. The Iroquois will probably be towed to Victoria to receive a new propeller.

THE SAILING SHIPS.

British Ship Dovenny Chartered to Load at Olympia.

The Iroquois arrived last night and this morning will dock the British ship Leicester Castle to discharge cargo. The British ship Dovenny, which has been lying in the Royal Roads for some time, leaves today for Olympia, having been chartered to load lumber at that port for the west coast of South America. The Steamer ship, which was chartered to load the Royal Roads from Sunday last from Humberman, leaves today for Tacoma. She will also load lumber for the west coast of South America. The British ship Pass of Brander, which took cargo from the Sound to Capetown, is listed to return to this port via New Zealand. Letters are also being received here from the British ship Pass of Ley, but it is unknown whether she will be headed this way.

MACHAON IN PORT.

Big Freighter From Liverpool at Ocean Dock—Tacoma Sails Outward.

Steamer Machaon of the Blue Funnel line, one of the great freighters running between Liverpool and Victoria, for Alfred Holt, reached port yesterday from Liverpool via Vancouver, Victoria, and Seattle. The steamer Tacoma of the Northern Pacific line, sailed yesterday for the Orient, leaving the Ocean dock yesterday morning for Yokohama and the usual ports of call in the Far East, and the steamer Far East, the C. P. R. line, due to sail to the Orient, having sailed from Victoria on August 1st. The big freighter of the Blue Funnel line brought a good-sized cargo of general freight, of which 643 tons of coal consignments, and including a quantity of naval stores to Esquimalt. She had an unusual voyage and on her last leg of the round-the-world passage, encountered much fog in crossing the Pacific from Murray's port she left on July 31st. The Tacoma had a large freight, including heavy shipments of flour, on which cargo she had been delayed, but as a result of the late return, was unable to get out of the port of Esquimalt.

A surprising fact is the strength with which the tonnage is being held, the number of forced sales have been comparatively few, especially of modern steamers.

The demand for second-hand tonnage has been very limited, but a small number of steamers have sold lately at the prices realized having been from 25 per cent to 35 per cent below those of 1890.

The principal recent events in the shipping world have been the new Nordenske Lloyd steamer Kaiser W. P. H. commencing her service in the North Sea trade, the sale of the British Columbia to the Canadian Pacific Railway Company, the ordering of the new Eastern date Cunard liner, and the pending contracts for the two 25-knot steamers for the latter company. The results of Mr. Morgan's shipping conference do not appear to have realized the expectations of its founders for the North Atlantic trade, and the most important will be of the greatest importance to the trade of this country, and it behoves shipowners to carefully consider the matter from all points before arriving at a definite conclusion one way or the other.

MARINE NOTES.

Steamer Cottage City of the P. C. S. Co. will sail North again from the Outer wharf on Saturday morning.

Steamer Spokane is due tomorrow from the North on her excursion trip from Alaska.

Steamer Princess May, which left Skagway on Tuesday morning, is due today from the North.

The schooner Sea Maid, which was purchased and then sold to the New Vancouver Fishing Company, is still the property of Capt. Jacobson, the report published in the evening paper to the effect that the schooner had been sold, being unfounded.

The Pioneer Stevedoring Company, of which Mr. Stephen of Vancouver is the president, has paid the tax of \$50 imposed on stevedores. The company is engaged in discharging the Leeside Castle. The last time the Vancouver stevedore discharged a vessel here when they unloaded the Glenavon—Mr. Stephen successfully evaded payment of the tax, it being held by the police court that the stevedore was not empowered to impose it as a license.

Pale, yellow skin tells of a torpid, sluggish liver and impurities in the blood which will be entirely removed by Dr. Chase's Kidney-Liver Pills.

By acting directly on the liver and bowels this great medicine brings prompt and lasting cure for all derangements of these organs, cures indigestion and dyspepsia and removes the cause of headaches and biliousness.

One pill a dose. Twenty-five cents a box at all dealers. Portrait and signature of Dr. A. W. Chase on every box.

Portents Of Coming Victory

Conservative Meetings Clearly Show the Trend of Public Feeling.

Hon. Mr. Green At Nanaimo
Hon. Mr. Tatlow At Salt Spring Island.

tion of committee rooms was settled out of hand, premises in the heart of the business centre being selected.

W. K. Leighton, who has been appointed returning officer, resigned as secretary to Mr. A. E. Planta was elected in his place.

An organization meeting at Lady Smith, to be addressed by Messrs. Green and Wilson was announced for Wednesday next.

SNAILHAM GETS THE DECISION.

Twenty Rounds at the Savor Last Night Provide Much Amusement.

Referee Harry Morton gave the decision to William Snailham, of San Francisco, over Atwell last night at the Savoy theatre, at the end of the many rounds of boxing. In the thirteenth Snailham had Atwell very groggy, and all but out, but he lacked the steam to finish his man. Atwell was down for two-thirds of the count several times in this round, and was only saved by the song. He made sure his rounds, and got up to the finish, while Snailham, who had 300 men, was up to the finish and going strong. Atwell did the leading from round one to the finish, and showed himself a game and clever boxer. Snailham's defense was admirable, his mastery of the duck and slip being always evident. The house was packed with admirers of the game and the two men seemed to meet with a good deal of favor.

Snailham guaranteed to stop Charles Hill of Victoria in ten rounds. A match is probable.

TOMORROW'S BIG ATHLETIC MEET

Final Arrangements Made for Initial Affair Under Auspices of N.P.A.A.

Very little more can be done to make the initial meeting of the N. P. A. A. a success, for the committee in charge are in evidence everywhere one goes, and they promise to leave nothing undone to let all lovers of good sport realize that when they are working something is doing.

A fair idea of the undertaking in the hands of the local association (the J. A. A.) can be grasped when it is seen that over 70 stalwart young athletes have entered for the many events in the programme. Out of this large number it is an assured fact that competition will be the keenest, for there are many entered with records worthy of defending, and no doubt will do their utmost to maintain the records they have been so proud in establishing. The local boys have been training hard, and although it will be the first experience of many of them, yet they intend to make a desperate effort to hold the hand-given prizes by the officials. It is gratifying to see the committee in charge that the citizens and merchants have encouraged them so much in this meet by the hand-some donations given, and the only thing now that remains for a successful meet is fair weather. The track is in excellent condition, and should enable the sprinters to make some records. The next issue will contain a full list of the events, with names of competitors and numbers assigned to them. The following is a list of the donors of prizes:

Challoner & Mitchell, Dr. Spencer, Mr. Briggs & Chamberlain, Geo. Gillespie, C. E. Redfern, Wm. Bros. A. G. Gandy, W. J. Penketh, D. E. Campbell, G. W. Jackson, Sylvester Feed Co., J. Wenger, Steve Jones, Carter & McCanless, T. N. Hibben & Co., Srgt. Major Richardson, B. Williams & Co., Son & Gowen, C. Loewenberg, A. E. Todd, B. C. Electric Railway Co., Fell & Co., Dixi Ross & Co., R. P. Rithet & Co., W. T. Oliver, Turner, Becton & Co., R. Hall, Brackman-Ker Milling Co., J. Piercy & Co., M. R. Smith & Co., and M. W. Waitt & Co., Messrs. Pith & Leiser, Col. Prior, B. Wilson, Co., and M. W. Waitt & Co.,

Hood's Pills

Sold by all druggists. 25 cents.

LEMP'S

This is the season for Beer, and Lemp's St. Louis "EXTRA PALE" is the best bottled beer on the market today. So say all who are judges. It is simply perfect—light and sparkling, it is made from Hops and retains its full Hop flavor. No other Beer compares with it. For family use, it is the best. Your grocer has it, and it is incomparable. It is a great saving to the dealer or consumer. This does not apply to any other Beer but Lemp's. All Hotels, Clubs, Restaurants and first class Bars throughout British Columbia are supplied with Lemp's. They have tried other much advertised Beers, but all "fall back" on this favorite brand. Your refreshment list is incomplete without it. Always the same; never changes in quality.
